

San Diego Cal. May 6/55
Prof. A. A. Gray
Boston Mass.

Dear Sir
Your letter of Mar 15th was
received some time ago, & great regret to learn
that your health is so poor, and wish you
San Diego imp may be of much benefit to you.
The climate of San Diego is much better than
that of any point on the Atlantic coast -
I speak from experience - and it would
do much for you, I hope you may yet
spend some time here.

Enclosed I send a partial cata-
logue of our plants.

By this mail I send you a par-
cel containing, first - duplicates of plants
formerly sent - Second new plants Nos
47 to 281 - in enclosure,

The duplicates are

- 59 *Asclepias tuberosa* *Asclepias tuberosa*, 88 *Asclepias tuberosa*
